OGDEN REPUBLICANS IN FAVOR OF HARMONY

Special to The Tribune.

OGDEN, March 26 .- Local Republicans are highly pleased at the apparent determination on the part of Utah party leaders to harmonize the differences that have existed in the party. The action of the Utah Congressional delegation in drawing out of the contest for representation in the National convention is highly commended, and it is looked upon as a big step toward

healing up old wounds. County Chairman Agic, in speaking of the matter said: "The situation in Utah demands wise, conservative action upon the part of all Republicans. There should be no radicalism nor factional controversies. The delegation from this State to the National convention undoubtedly will favor the nomination of President Roosevelt, and should be composed of stanger, represhould be composed of staunch, representative Republicans of high character and standing. I believe the Republi-cans of Weber county will be found united and harmonious in the coming campaign. My efforts have been, and will continue to be, exerted to that end. The disposition among our party lead-ers to harmonize all elements is commendable and presages a great party

The solemnity of the County Clerk's office was enlivened yesterday by a little till between County Clerk Hollingsworth and Attorney Holm. There have been differences between the two for some time and when the attorney appeared yesterday to file a remitilitur from the Supreme court, an argument arose. The attorney fold the Clerk that he was altogether too fresh, and the latter ordered him out of the office. The attorney declined to go and the Clerk went to the telephone and called the Sheriff to eject the attorney. The line was busy, and later the trouble was smoothed over.

NONE OF HIS DECISIONS OVERRULED BY COURT

Special to The Tribune. OGDEN, March 26 -Friends of Col. A. B. Hayes, Sollcitor of Internal Revenue, Department of Justice at Washington, are greatly pleased to learn that he has just passed his first year of administration, and during that time there has not been a decision of the Federal court over-ruling any opinion he has given. Of the many declsions in important cases, many establishing precedents, all have been readily confirmed and his opinions have been by officials generally approved. Col. Hayes appears to have made as many friends at the National Capitol as he has at Ogden and throughout Utah where he is known as a capable attorney, an effi-cient and honorable State officer and a thoroughly conscientious and sociable neighbor,

The American Fiag company ordered 500 ore sacks today. The hoisting of the remarkably high grade sacking ore has become a regular feature of the work at the mines, all of the available space about the hoist being taken up by the product. The latter is said to be of a grade ranging in value from \$400 to \$700, the recent assays showing 700 ounces of silver, \$77 gold and 47 per ceut lead.

In addition, seventy-five to 100 tons of ore of a lower grade have been piled on the dump. The final goal of all these improvements is a mill, to be erected some time in the future in Enpire canyon conveniently near the hoist.

An employee of the Naildriver company is authority for the statement tonight that the Naildriver has ore on the 700-foot level, the lowest workings of the property. While this report lacks confirmation from the management, it is believed by stock-holders here, who are not a little excited over the discovery. The occurrence of ore on the present level of the Naildriver is viewed by mining men here as an event of great importance to the camp, confirming, as it will, several theories vital to much of Park city's future and extending the field of productive territory in a new direction.
